Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), a data storing and reproducing system comprising at least one attachment unit coupled to a server, the at least one attachment unit comprising means for interfacing with a portable memory device having a reference to the reproduction data; first and second reproduction devices coupled to one or more of the at least one attachment unit, the first reproduction device capable of performing a first reproduction of the reproduction data and the second reproduction device capable of performing a second reproduction of the reproduction data the second data reproduction being different than the first data reproduction; and rule processing means for processing a rule set which includes selection criteria for selecting the reproduction data to determine whether to reproduce the reproduction data based on whether the reproduction data satisfies selection criteria of the rule set as claimed in claim 1. Similar features are claimed in claims 12, 23, 33, and 40. Therefore, claims 12, 23, 33, and 40 are allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
